

Verifone VX805 End of Life Notification

As part of the normal lifecycle of a payment device, Verifone has now issued end of life notification on their PCI 3 range of payment devices in compliance with the PCI Security Standards Council effective April 30, 2021.

Products with expired PCI 3 approvals are not eligible for new sale or new deployments other than repair and replacement of like products.

It is acceptable to purchase devices prior to the PCI 3 expiry date of April 30, 2021, however, anyone purchasing expired devices or deploying large number of devices after the expiry date will need to discuss the liability with their acquirer.

Our vendor does have a limited quantity of the VX805 PIN pads, and you will only be able to purchase these as long as supplies last.

Please contact a customer service representative if you'd like to make a final purchase of the VX805 devices for your installation.

Beginning January 2021, we will be moving forward with our new PIN device which will be the [Ingenico Lane 3000](#).

If you have any questions, please call or email an account representative. We're always just a phone call or email away!

There is limited supply of Verifone Vx805 devices available for sale prior to April 30, 2021, so supplies starting in January 2021 are dependent on availability.

Verifone VX805 Payment Terminal End of Support Frequently Asked Questions

How long can I use the Verifone VX805?

All existing Verifone VX805 devices in working condition can be used until they are no longer operable or until April 30, 2023. The Verifone VX805 will need to be replaced by April 30, 2023 at the latest.

What device is available as an alternative to the Verifone VX805?

We are moving forward with a replacement device from Ingenico. We will be moving to the [Ingenico Lane 3000](#) which is a device that supports USB, Ethernet and Power Over Ethernet (POE) and is PCI 5.x certified.

Can I add a new Ingenico Lane 3000 device before April 30, 2021?

Yes. The Ingenico Lane 3000 device will be available in our January 2021 release, but after April 30, 2021 or until quantities last, all new or replacement PIN pads will need to be replaced with the Ingenico Lane 3000. All existing Verifone VX805 devices that were purchased before April 30, 2021 will retain their PCI validation for Point to Point Encryption ("P2Pe").

Is there a final order date?

After April 30, 2021 or as long as quantities last, ABCorp-CCS will cease taking orders for the VX805 PCI 3 product.

There is limited supply of Verifone Vx805 devices available for sale prior to April 30, 2021, so supplies starting in January 2021 are dependent on availability.

End of Support Date: Verifone will not issue software updates or provide development support after April 30, 2021. ABCorp-CCS will continue to provide support according to any agreements currently in place

End of Service Date: Verifone will discontinue service and repair of the Verifone VX805 after April 30, 2023. Verifone is no longer offering extended warranties or other support commitments that would extend beyond April 2023.
