Our fully integrated Evolve Instant Issuance™ solution is built on an open platform with the ability to interface with any processor combination. Deliver personalized EMV contact and Dual Interface debit & credit cards instantly and affordably, while increasing consumer card usage and enhancing security. ABCorp provides a wide range of solutions for on-site issuance of card and digital products.

Announcing new features added to our Evolve Instant Issuance platform

We are pleased to announce to you our newest features that have been added to our Evolve Instant Issuance platform! Spurred on by the great insights from our customers and partners, we are making our EVOLVE Instant Platform available to a broader audience, in adding the following enhancements:

- **Sophisticated User Interface supporting the Spanish language**
- **Support for the EMV dual interface ADVANTIS Trio Technology**

We always take the feedback and communication from our current and prospective clients seriously to make sure that we're providing you with the most customer centric user experience possible.

There will be more news and exciting new features to enhance the EMV Card issuing experience, both digital and physical.

Please call us to hear more

The ABCorp Team
